NCTIES 2010 Conference
Raleigh, NC
March 2010

I am in the process of expanding my research model into a "how to" book on professional development in technology for educators. I would very much appreciate your feedback and comments.

1. Do you believe the model presented clearly represents the recommended concept of professional development in technology? If not, what do you find confusing and how would you change it?

2. Does the process for professional development as described appear to be comprehensive and easy to follow? What suggestions do you have to make it clearer?

3. Have you experienced any process, element or key concept which is not addressed? Please explain?

4. What do you feel needs to have more explanation?

5. Other comments or feedback?

THANK YOU FOR TAKING THE TIME TO PROVDE FEEDBACK!
